Version 3

User Stories

1. As Alice (TEQ Admin), I want to create an account for a new partner agency, so that they can access the system.
2. As Alice (TEQ Admin), I want the system to automatically send login information to the contact information of a newly created account so they can log in.
3. As Bob (Agency Employee), I should be able to change my system password, so that I have a password that is easier for me to remember.
4. As Alice (TEQ Admin), I would like to add new iCare templates into the system, so that any new types of services can be recorded.
5. As Bob (Agency Employee), I would like to upload different iCare templates in the form of .xlsx files with data in them that I've gathered throughout the month to the system so that the system can keep track of the data for me.
6. As Alice (TEQ Admin), I would like to generate a report using my own sql query of the data. The data in the report should be the anonymized aggregated data from all agencies.
7. As Charlie (TEQ Employee), I would like to generate a report based on preset sql queries instead of inputting an sql query.
8. As Alice (TEQ Admin), I would like to export data returned from queries in an .csv file format.
9. As Charlie (TEQ Employee), I would like to generate and export reports from preset queries in .pdf file format
10. As Alice (TEQ Admin), I want to be able to turn query results into different types of graphs, so that I can get a visual representation
11. As Alice (TEQ Admin), I want to create an SQL query and set it as a preset query option so it can be used by low-level and admin users later
12. As Alice (TEQ Admin), I want a graphical representation of what the differences are between people who receive the service they were referred to, and the ones that don't (i.e., age, location, country of origin, gender, etc.)
13. As Alice (TEQ Admin), I want a graphical representation that are the trends in the types of services accessed by newcomers in Scarborough?
14. As Alice (TEQ Admin), I want a graphical representation of what are the current summaries of Scarborough client population?

Changelog

14/10/2018

- initial version

03/11/2018

- add user stories for Charlie who is a non-technical TEQ employee
- remove user stories for Donald because the user is no longer relevant

11/11/2018

- rewrite some user stories to be more clear
- break down big user stories into smaller, more clear user stories

12/11/2018

- add new user stories from new business requirements
